

**Country Women Artists**

**(Northern Rivers Chapter)**

**is a selection of artists from around the Lismore area on the Far North Coast of NSW. We have in common a deep connection to landscape and place articulated through our various practices. We are committed to ongoing projects that manifest our concern for the environment in which we live and the communities in which we are embedded. This project demonstrates the integration of our art and lives.**

**We share the history of eco-activism in and around Bundjalung Country. This project references and respects our communities' commitment to environmental protection. We acknowledge the recent successes of the anti-Coal Seam Gas movement, in particular its infamous Knitting Nannas.**

**Maree Bracker**

**JIGGI**
